

**TUBO & Co presents**

# ODD

**ODD is a dance piece about grasping the pattern, about finding the right side and coming to terms with oneself. ODD is about fitting into the body, the group, the rhythm and the world.**

*For some, everything always fits perfectly, while others tangle with the same knots that can never be untied.*

TUBO & Co brings you fresh choreography, new music, interactive scenography, dramatic lighting, whimsical sound design, imaginative objects and costumes in a surprising story about identity and group dynamics.

The performance spins on TUBO's previous successes Vill ha Hund and SNÖ, which toured both nationally and internationally.
